Raketu Releases New Mobile Media Drive Application

By Anshu Shrivastava
TMCnet Contributing Editor

Raketu, an Internet communications, information, entertainment, and social networking company has released a new Mobile Media Drive application for users.

The new application, according to Raketu, allows users of Raketu—on any device, anywhere in the world—to share their media with others both inside and outside of the Raketu community.

Company officials said that users can share any of their Media Drive content with Raketu friends through e-mail, RSS bulletins, comments, or with friends outside of Raketu through other social networks, texting or e-mail.

In addition, users also have the option to keep private or make public any of their content.

Moreover for no charge, the new Media Drive service allows 1MB of storage to any Raketu user that many Raketu users are already using the Media Drive service as a backup for their files on t

Currently, 100MB is available at \$0.99 per month, with a special introductory offer of \$9.90 per y

“We wanted to provide Raketu users a media drive/storage service that could be easily accessed like other Raketu services,” said Greg Parker ([News - Alert](#)), president and CEO at Raketu.

He also said that Raketu’s new “Raketu users to share their use both inside and outside of the F

“By using Raketu, they can now their mobile device, save the pi and share it with friends and far instantaneously.”

Earlier this month, Raketu ann free voice over Internet protoco texting promotion. Consumers c Raketu's free international callir promotion when they make a pr
